Headteacher	Chair of Governors

E-Safety Policy

E-Safety encompasses Internet technologies and electronic communications such as mobile phones and wireless technology. It highlights the need to educate children and young people about the benefits and risks of using new technology and provides safeguards and awareness for users to enable them to control their online experiences.

The school's e-safety policy will operate in conjunction with other policies including those for Behaviour, Bullying, Curriculum, Data Protection and Safeguarding.

Good Habits

E-Safety depends on effective practice at a number of levels:

- Responsible ICT use by all staff and pupils; encouraged by education and made explicit through published policies.
- Sound implementation of e-safety policy in both administration and curriculum, including secure school network design and use.
- Safe and secure broadband from the Local Authority for Learning including the effective management of content filtering.
- National Education Network standards and specifications.

E-Safety Audit – Primary Schools

This quick self-audit will help the senior management team (SMT) assess whether the e-safety basics are in place.

Has the school an e-Safety Policy that complies with CYPD guidance?	**Y/N**
Date of latest update:	
The Policy was agreed by governors on:	
The Policy is available for staff at:	
And for parents at:	
The designated Child Protection Teacher/Officer is:	
The e-Safety Coordinator is: David Sutcliffe	
Has e-safety training been provided for both pupils and staff?	**Y/N**
Is the Think U Know training being considered?	**Y/N**
Do all staff sign an ICT Code of Conduct on appointment?	**Y/N**
Do parents sign and return an agreement that their child will comply with the School e-Safety Rules?	**Y/N**
Have school e-Safety Rules been set for pupils?	**Y/N**
Are these Rules displayed in all rooms with computers?	**Y/N**
Internet access is provided by an approved educational Internet service provider and complies with DCSF requirements for safe and secure access.	**Y/N**
Has the school filtering policy has been approved by SMT?	**Y/N**
Is personal data collected, stored and used according to the principles of the Data Protection Act?	**Y/N**

School e-Safety Policy

The school will appoint an e-Safety coordinator. In many cases this will be the Designated Child Protection Officer as the roles overlap.

Our e-Safety Policy has been written by the school, building on the Sheffield Children and Young Peoples' Directorate and Government guidance. It has been agreed by the senior management team and approved by governors.

The e-Safety Policy will be reviewed annually.

Why is Internet Use Important?

The purpose of Internet use in school is to raise educational standards, to promote pupil achievement, to support the professional work of staff and to enhance the school's management information and administration systems.

Internet use is part of the statutory curriculum and a necessary tool for learning. It is an essential element in 21st century life for education, business and social interaction. Access to the Internet is therefore an entitlement for pupils who show a responsible and mature approach to its use. Our school has a duty to provide pupils with quality Internet access

Pupils will use the Internet outside school and will need to learn how to evaluate Internet information and to take care of their own safety and security.

How does Internet Use Benefit Education?

Benefits of using the Internet in education include:

- access to world-wide educational resources including museums and art galleries;
- inclusion in the National Education Network which connects all UK schools;
- educational and cultural exchanges between pupils world-wide;
- access to experts in many fields for pupils and staff;
- professional development for staff through access to national developments, educational materials and effective curriculum practice;
- collaboration across support services and professional associations;
- improved access to technical support including remote management of
- networks and automatic system updates;
- exchange of curriculum and administration data with the Local Authority and DCSF; access to learning wherever and whenever convenient.

How can Internet Use Enhance Learning?

- The school Internet access will be designed expressly for pupil use and includes filtering appropriate to the age of pupils.
- Pupils will be taught what Internet use is acceptable and what is not and given clear objectives for Internet use.
- Internet access will be planned to enrich and extend learning activities.
- Staff should guide pupils in on-line activities that will support learning outcomes planned for the pupils' age and maturity.
- Pupils will be educated in the effective use of the Internet in research, including the skills of knowledge location, retrieval and evaluation.
- Pupils will regularly learn about E-Safety across the computing curriculum.

Authorised Internet Access

- The school will maintain a current record of all staff and pupils who are granted Internet access.
- All staff must read and sign the 'Acceptable ICT Use Agreement' before using any school ICT resource.
- Parents will be informed that pupils will be provided with supervised Internet access.
- Parents will be asked to sign and return a consent form for pupil access.

World Wide Web

- If staff or pupils discover unsuitable sites, the URL (address), time, content must be reported to the Local Authority helpdesk via the e-safety coordinator or network manager.
- School will ensure that the use of Internet derived materials by pupils and staff complies with copyright law.
- Pupils should be taught to be critically aware of the materials they are shown and how to validate information before accepting its accuracy.

Email

- Pupils may only use approved e-mail accounts on the school system.
- Pupils must immediately tell a teacher if they receive offensive e-mail.
- Pupils must not reveal personal details of themselves or others in e-mail communication, or arrange to meet anyone without specific permission.
- Whole class or group e-mail addresses should be used in school
- Access in school to external personal e-mail accounts may be blocked.
- E-mail sent to external organisations should be written carefully and authorised before sending, in the same way as a letter written on school headed paper.
- The forwarding of chain letters is not permitted.

Social Networking

- Schools should block/filter access to social networking sites and newsgroups unless a specific use is approved.
- Pupils will be advised never to give out personal details of any kind which may identify them or their location
- Pupils should be advised not to place personal photos on any social network space.
- Pupils should be advised on security and encouraged to set passwords, deny access to unknown individuals and instructed how to block unwanted communications. Pupils should be encouraged to invite known friends only and deny access to others.

Filtering

The school will work in partnership with the Local Authority, and the Internet Service Provider to ensure filtering systems are as effective as possible.

Managing Emerging Technologies

- Emerging technologies will be examined for educational benefit and a risk assessment will be carried out before use in school is allowed.
- Staff should not use mobile phones to take pictures or videos of children. Staff should only use digital cameras which have been provided by the school. Mobile phones are not permitted for use anywhere in school, around the children. This applies to members of staff and other visitors to the school. Mobile phones may only be used in office areas, staffroom etc. The only exception to this is staff taking a mobile phone with them on a school trip/visit outside of school, for use in emergencies only.
- Children who bring mobile phones to school are required to hand them in to the school office staff every morning and devices are collected at home time.

The Prevent Duty and E-Safety

All schools have a duty to ensure that children are safe from terrorist and extremist material when accessing the internet in schools. We have an important role to play in equipping children to stay safe on line. Internet safety is integral to our computing curriculum. Our staff are aware of the risks posed by online activity of extremists and have a duty to take action if they believe the well being of any pupil is being compromised.

Published Content and the School Web Site

- The contact details on the Web site should be the school address, e-mail and telephone number. Staff or pupils personal information will not be published.
- The headteacher will take overall editorial responsibility and ensure that content is accurate and appropriate.

Publishing Pupils' Images and Work

- Photographs that include pupils will be selected carefully and will not enable individual pupils to be clearly identified.
- Pupils' full names will not be used anywhere on the Web site or Blog, particularly in association with photographs.
- Written permission from parents or carers will be obtained before photographs of pupils are published on the school Web site.
- Work can only be published with the permission of the pupil and parents.

Information System Security

- School ICT systems capacity and security will be reviewed regularly.
- Virus protection will be installed and updated regularly.
- Security strategies will be discussed with the Local Authority.

Protecting Personal Data

Personal data will be recorded, processed, transferred and made available according to the Data Protection Act 1998.

Assessing Risks

- The school will take all reasonable precautions to prevent access to inappropriate material. However, due to the international scale and linked Internet content, it is not possible to guarantee that unsuitable material will never appear on a school computer. Neither the school nor the LA can accept liability for the material accessed, or any consequences of Internet access.
- The school should audit ICT use to establish if the e-safety policy is adequate and that the implementation of the e-safety policy is appropriate.

Handling e-safety Complaints

- Complaints of Internet misuse will be dealt with by a senior member of staff.
- Any complaint about staff misuse must be referred to the Head teacher.
- Complaints of a child protection nature must be dealt with in accordance with school child protection procedures.
- Pupils and parents will be informed of the complaints procedure.
- Discussions will be held with the Police Youth Crime Reduction Officer to establish procedures for handling potentially illegal issues.

Communication of Policy

Pupils

- Rules for Internet access will be posted in all networked rooms.
- Pupils will be informed that Internet use will be monitored.

Staff

- All staff will be given the School e-Safety Policy and its importance explained.
- All staff will be trained in Safeguarding procedures, including elements of E-Safety and The Prevent Duty.
- Staff should be aware that Internet traffic can be monitored and traced to the individual user. Discretion and professional conduct is essential.

Parents

- Parents' attention will be drawn to the School e-Safety Policy in newsletters, the school brochure and on the school Web site. The school will also organise E-Safety workshops to support parents' understanding of how to best safeguard their children against potential online dangers.

E-Safety Rules– Appendix A

Letter to parents – Appendix B

Staff Acceptable Use Policy – Appendix C

Appendix A

KS1 E-SAFETY RULES

THINK THEN CLICK

These rules help us to stay safe on the Internet

We only use the internet when an adult is with us.

We can click on the buttons or links when we know what they do.

We can search the Internet with an adult.

We always ask if we get lost on the Internet.

We can send and open emails together.

We can write polite and friendly emails to people that we know.

KS2 E-SAFETY RULES

APPENDIX B

Robert's First School

e-Safety Rules

All pupils use computer facilities including Internet access as an essential part of learning, as required by the National Curriculum. Both pupils and their parents/carers are asked to sign to show that the e-Safety Rules have been understood and agreed.

Pupil:	*Form:*

Pupil's Agreement

- I have read and I understand the school e-Safety Rules.
- I will use the computer, network, mobile phones, Internet access and other new technologies in a responsible way at all times.
- I know that network and Internet access may be monitored.

Signed:	*Date:*

Parent's Consent for Web Publication of Work and Photographs

I agree that my son/daughter's work may be electronically published. I also agree that appropriate images and video that include my son/daughter may be published subject to the school rule that photographs will not be accompanied by pupil names.

Parent's Consent for Internet Access

I have read and understood the school e-safety rules and give permission for my son / daughter to access the Internet. I understand that the school will take all reasonable precautions and use Northumberland Filters to ensure that pupils cannot access inappropriate materials but I appreciate that this is a difficult task.

I understand that the school cannot be held responsible for the content of materials accessed through the Internet. I agree that the school is not liable for any damages arising from use of the Internet facilities.

Signed:	*Date:*

Please print name:

Please complete, sign and return to school

APPENDIX C:

Staff Information Systems Code of Conduct

To ensure that staff are fully aware of their professional responsibilities when using information systems, they are asked to sign this code of conduct. Staff should consult the school's e-safety policy for further information and clarification.

- The information systems are school property and I understand that it is a criminal offence to use a computer for a purpose not permitted by its owner.
- I will ensure that my information systems use will always be compatible with my professional role.
- I understand that school information systems may not be used for private purposes, without specific permission from the head teacher.
- I understand that the school may monitor my information systems and Internet use to ensure policy compliance.
- I will respect system security and I will not disclose any password or security information to anyone other than an appropriate system manager.
- I will not install any software or hardware without permission.
- I will ensure that personal data is kept secure and is used appropriately, whether in school, taken off the school premises or accessed remotely.
- I will respect copyright and intellectual property rights.
- I will report any incidents of concern regarding children's safety to the school e-Safety Coordinator or the Designated Child Protection Coordinator.
- I will ensure that any electronic communications with pupils are compatible with my professional role.
- I will promote e-safety with students in my care and will help them to develop a responsible attitude to system use and to the content they access or create.

The school may exercise its right to monitor the use of the school's information systems, including Internet access, the interception of e-mail and the deletion of inappropriate materials where it believes unauthorised use of the school's information system may be taking place, or the system may be being used for criminal purposes or for storing unauthorised or unlawful text, imagery or sound.

I have read, understood and agree with the Information Systems Code of Conduct
